WHAT I LOOK FOR:

I am looking for a dynamic reality, which needs to integrate in its staff an experienced figure who can integrate and become an important pawn, as a sector manager, or as part of the production process, for its own reality or for its customers.

I would like to be part of a team with which to experience the feeling of being part of a real working team.

I want to learn from those who are more experienced than me, crossing difficulties and successes, working for a greater purpose and goals that are ever more important than those that a single person can aspire to.

I have no problems traveling for work, I am also able to operate remotely, always completing the tasks assigned to me.

Experiences

I have been working as a freelancer for several years, together with photographers, directors and production managers for local or national TV, brands, multi-brands or online market sites. I experiment my creativity by creating communication through images, both for the web, with photo and video services.

I gladly collaborate with Communication Agencies, Graphic Designers, Social Media Managers, reaching the set goal together.

I created my own website where I exhibit my works, my show-reel:
